**A. BUTTE COUNTY CLIMATE ACTION PLAN (CAP), WORK PLAN
AND EIR ADDENDUM**

**[AGENDA REPORT – BUTTE COUNTY GENERAL PLAN 2030 – DRAFT CLIMATE
ACTION PLAN](#)**

[BUTTE COUNTY CLIMATE ACTION PLAN](#)

The Butte County Department of Development Services coordinated preparation of the

CAP for the unincorporated area of Butte County. The Butte County General Plan was adopted and the General Plan EIR was certified in April 2010, and amended in November 2012 by the Butte County Board of Supervisors (County Resolutions 10-152, 10-150, 12-124, and 12-123). General Plan goals, policies, and actions to address global Greenhouse Gas (GHG) emissions include, but are not limited to, a requirement to reduce GHG emissions from County operations and community-wide sources. General Plan Action COS-A1.1 specifically calls for preparation, maintenance, and implementation of a CAP. The proposed CAP identifies a GHG emissions reduction target and describes how the County will reduce both community-wide and government operations emissions to achieve the target. The CAP identifies a GHG emissions reduction target of 15 percent below baseline levels by the year 2020. The year 2006 has been identified as the baseline year in conformance with state legislation. The CAP provides measures and associated actions for energy efficiency and renewable energy, alternative fuel vehicles and equipment, transportation, agriculture, and solid waste. It also addresses GHG emissions generated from County government operations and outlines a strategy the County can use to adapt to a changing climate. The CAP supports statewide greenhouse gas emissions reduction goals identified in State Assembly Bill (AB) 32 and State Senate Bill (SB) 375. An EIR Addendum to the previously Certified General Plan 2030 Environmental Impact Report (EIR) and Supplemental EIR is proposed for this project consistent with the requirements of the California Environmental Quality Act.
